

Rahmenbedingungen für die rechtmäßige Aufzeichnung von Telefonaten

For research project it might be desirable to record telephone calls with test subject. [German law](#) usually does not allow this. Also, Jacobs University's [tele media guidelines](#) prohibit using telephones for monitoring.

The attached document, which has been provided by [Jacobs University's data protection officer](#), gives guidelines, how to allow for recording of telephone calls with test persons, and describes, which provisions to take to allow this. It also gives a template to get signed by the researcher to prove, that the requirements have been made known and will be followed.

The text is in German.
