

340. Favourite Pages

[335. Team Spaces](#)

[30. Confluence Tutorial, Staying Tuned](#)

[350. Watching a Space](#)

- Browse to any page
- in the upper-right corner is a star symbol as for [330. Favourite Spaces](#)
- toggle at least one page to mark it as a favourite page
- browse to the

 Unknown macro: 'link-to'

- at the lower-right is an area "Favourite Pages"
- this area lists all pages marked as favourites as above.

 This only works for [pages](#), not [blog entries](#).

Usage

Favourite pages are a great way to set bookmarks to often-used pages within the system. It offers "one-click" information.
